

Better is Better.

More than a mark of efficiency, the ENERGY STAR label is also a symbol of trust, quality, and responsible stewardship of the environment that we all live in. Buying a new home is a big decision. So it helps to start with the promise of peace of mind, enduring quality, wall-to-wall comfort, and proven value.

You'll find that promise with ENERGY STAR.

ENERGY STAR was started by EPA in 1992 as a market-based partnership to reduce greenhouse gas emissions through energy efficiency. Today, the ENERGY STAR label can be found on more than 60 different kinds of products as well as new homes and commercial and industrial buildings that meet strict energy efficiency specifications set by EPA. In 2012 alone, Americans with the help of ENERGY STAR, saved more than \$24 billion on their utility bills, while reducing greenhouse gas emissions equivalent to the annual emissions from 50 million vehicles.

A photograph of a family of four standing in a modern kitchen. The father is on the left, holding a young boy on his shoulders. The mother is on the right, standing behind a young girl. They are all smiling. The kitchen has dark wood floors and white cabinets. In the top left corner of the image is the ENERGY STAR logo. In the top right corner, the text 'YOUR ENERGY STAR CERTIFIED NEW HOME' is written in white capital letters, with 'BETTER IS BETTER' written below it in a larger font. At the bottom of the image is a white rectangular box.

ENERGY STAR.

It's the little label with a big message.

Better is Better.

is proud to offer new homes that have earned the ENERGY STAR label because it means your home has been designed and built to standards well above most other homes on the market today.

- **Better quality**
- **Better comfort**
- **Better durability**
- **Reduced utility and maintenance costs**

Peace of mind.

The result of a home that's built better.

With the ENERGY STAR label on your new home, you can be confident that it will deliver and has been built better from the ground up.

- Meets strict requirements set by the U.S. Environmental Protection Agency (EPA)
- Tried-and-true best building practices
- More inspections and testing by certified professionals

Enduring quality.

Better systems make all the difference.

A new home is a big investment, so it's important that it be designed with features built to last.

- A complete **Thermal Enclosure System** with comprehensive air sealing, quality-installed insulation, and high-performance windows
- A high-efficiency **Heating, Ventilation, and Cooling System**
- A comprehensive **Water Management System** to protect roofs, walls, and foundations from moisture damage
- **Energy-efficient Lighting and Appliances**

Wall-to-wall comfort.

A better way to live.

From the moment you walk in the door of your ENERGY STAR certified home, you'll see, feel, and hear the difference.

- Efficiently delivered comfort, controlled humidity, and reduced noise
- A constant supply of fresh, filtered air, reducing indoor pollutants, dust, pollen, and other allergens
- Consistent temperatures and diminished drafts throughout the entire home

Proven value.

A better investment for today and tomorrow.

ENERGY STAR certified new homes offer better energy efficiency and performance compared to other homes.

- Use 20-30 percent less energy than typical new homes; even more when compared to most resale homes
- Better resale value if it comes time to sell
