

Indoor airPLUS Qualified Home

All 2013 & Later Legacy Homes

are verified by

Preferred Energy Consultants

to meet Indoor airPLUS construction specifications as established by the U.S. Environmental Protection Agency.

Indoor airPLUS qualified homes are designed to contribute to improved indoor air quality.

February 13, 2013

Indoor airPLUS Features

- **Moisture and Mold Control**
- **Radon Resistant Construction**
- **Pest Barriers**
- **Effective Heating, Ventilating, and Air-Conditioning Systems**
- **Safe Combustion**
- **Healthier Building Materials**

Not all features are required in all cases. To learn more about indoor air quality features in your home, ask your builder to review the Indoor airPLUS verification checklist with you, or visit www.epa.gov/indoorairplus.
